

JA STOCK MARKET CHALLENGE

Junior Achievement™

INVEST

in a brighter tomorrow

JA Take Stock in Your Future introduces students to basic concepts about how the stock market works and the impact of current events on the stock market. Through JA Take Stock in Your Future, students discover the benefits and challenges of investing in the stock market as part of a broader, long-term investment strategy and the risks and rewards of trading. After completing the classroom curriculum, students and teachers are invited to compete in the JA Stock Market Challenge, where high school students compete by investing and trading fake funds in the real market creating draft portfolios as teams, and finalizing their stock selections.
